ABOUT US

Ace Priyadarshini Lanakay School, Established in 1973 is a community where all the members thrive as learners, growing and developing academically, socially, physically, emotionally and spiritually. With years of we provide our students with rigorous and innovative educational program in an ambience that embraces diversity of people, cultures and ideas.

We create a positive learning environment to give our students the best possible opportunities to maximize their progress.

The students are monitored through regular weekend tests and tutorials with teachers who will offer advice to ensure that the students progress rapidly.

PHILOSOPHY

To provide high quality, creative, academically sound education in an understanding and supportive environment with a spiritual upbringing.

CLASSES**

**PERSONAL
ASSESSMENT**

**CO - CURRICULUM
ACTIVITIES**

ROBOTICS

We are the only school to teach our children robotics, since it is very important for them to be in touch with today's technology to be the leaders of tomorrow.

We have a group of engineers from Edupro building this module along with us.

CHANDAN SHETTY

CULTURAL ACTIVITIES

We encourage our students not only in academics but also in various cultural events and activities. We organize a fest called “**Priyam**” which is filled with **Dance, Music, Theatre** and various other cultural activities making the students more self confident & adding a bit of fun to their school life.

Students here will find the hobbies they take to and will find a passion through these cultural events & activities leading to the all round development of the children.

SANJITH HEGDE

KINDERGARTEN & NURSERY GOALS

Our Main Moto is “Happy Children & Satisfied parents”.

Our curriculum exposes the children to early childhood development principles. We use various techniques like “ Math Lab ” to help the children grasp things better.

We prepare our curriculum keeping in mind the individual attention that each child needs for his overall development as he grows older. Various skill development factors are kept in mind while building the curriculum for the children.
