Facilities @ Little Elly

Little Elly Environment

- A general environment of happiness prevails in all the Little Elly concept rooms.
- Here children adopt the basic skills, knowledge and capabilities from different concept rooms of learning as per their age and abilities.
- All concept rooms are interwoven and mutually influence a child's development and experimental learning

Approach – Montessori & Waldorf Methodologies

- Little Elly's approach amalgamates two of the fastest growing educational methodologies in the world – Montessori and Waldorf.
- A carefully prepared Montessori environment guarantees exposure to a wide variety of materials and experiences.
- As per the Waldorf approach, instruction is given by the same teacher for the first 2 years of education, and by kindergarten specialists in the later years.

Holistic Diligence

- Little Elly – The little world of joy: is a safe, cosy, stimulating learning environment where every child is heard, encouraged and given realistic and positive response.
